Hello Mr. Anderson: Hope you are doing fine. Here is some information that may be helpful in reviewing the EJ aspects of this TCEQ permitted operation. The first attachment lists several area landowners and provides latitude and longitude data for their drinking water wells. The second attachment is a map of the general area, showing the acreage (colorful shades) where the in-situ solution mining of uranium may take place. Please feel free to phone/call/e-mail me if I can be of further assistance. Thank you,
